Selected as the Highest-Rated “A List” of Climate Change by CDP Survey

MS&AD Insurance Group Holdings, Inc. (President & CEO: Yasuyoshi Karasawa, the “Company”) was recognized as a global leading company for its efforts to respond to climate change by being included in the highest-rated “A List” of CDP* survey on climate change.

1. The “A List” of CDP climate change

The Company was selected as an “A List” company recognized as a world leading company for particular excellence in activities in response to climate change at the “CDP 2017 Japan Report” that was held at United Nations University on 24th October. The “Climate Change A List” is the highest level evaluation, and consists of 13 companies from Japan and 112 companies from around the world.

* CDP

This is an evaluation of the response to climate change by over 6,000 major companies around the world based on the request of 803 institutional investors who hold over 100 trillion US dollars of assets by the international non-profit organization that provides the Environmental Information Disclosure System. This is to encourage companies to provide information disclosure and management of environmental impacts, with 6,300 companies who account for 55% of total market capitalization throughout the world disclosing environmental information through CDP in 2017.

Refer to the CDP website for details. <https://www.cdp.net/en>

2. The initiatives of the MS&AD Insurance Group

In addition to efforts to reduce the energy consumption of our group companies as a response to climate change, the MS&AD Insurance Group strives to provide insurance products and services that also help the value chain such as customers and suppliers to respond to climate change. These efforts to provide insurance products and services for promptly identifying diverse risks surrounding society, providing information on these risks, preventing the occurrence of and reducing the damage caused by these risks, and reducing the economic burden in the event that the risks do occur are undertaken in accordance with “the MS&AD’s story of value creation”.

These efforts aim to realize the corporate mission of “to contribute to the development of a vibrant society and helping secure a sound future for the earth, by bringing security and safety through the global insurance and financial services business” going forward, and contribute to creating a resilient and sustainable society.
