## Concept of Sustainability Information Disclosure

The MS&AD Insurance Group issues an annual Sustainability Report so that stakeholders can better understand the sustainability-related activities at the Group. In addition to including information that is considered important by stakeholders and the Group, the report is published on the website that focuses on conservation of natural resources.

1.Toward realization of “Group which Supports a Resilient and Sustainable Society,” the MS&AD Insurance Group will contribute to resolution of social issues such as climate change as a platformer of risk solutions, and will grow together with society.

- In addition to coverage for economic losses, we seamlessly provide products and services before and after compensation, and security.
- We aim to offer the best solutions through marketing that utilizes digital technology, underwriting, claims settlement, risk consulting.

2.This report focuses on the following three key priority issues that constitute “sustainability,” which is one of the foundations stated in the Medium-Term Management Plan (2022 -2025): Symbiosis with global environment (Planetary Health), Safe and secure society (Resilience) and Happiness of diverse people (Well-being).

3.The report also mentions unique initiatives being carried out at Group companies (please refer below for the scope of the report).

4.The report includes a collection of sustainability-related data.
