#### \*Notification

(1) The financial forecasts were based upon currently available information and contain many elements of uncertainty.

Actual results may differ from the forecasts due to changes in the business environment.

- (2) The non-consolidated result forecasts have been omitted due to immateriality.
- (3) The Company is a specified business company under "Cabinet Office Ordinance on Disclosure of

Corporate Information, etc" Article 17-15 clause 2 and prepares the consolidated financial statements for not the second quarter but the first half of the fiscal year.

# **Qualitative Information Concerning Results for the Interim Period**

# 1. Qualitative information concerning consolidated business results

While the Great East Japan Earthquake and its aftermath continued to have a severe impact on Japan's economy during the current consolidated interim period, signs of recovery, albeit modest, were evident as production and export activities began to return to normal following the realignment of supply chains. During the latter half of the period, however, this recovery was tempered by a continuing trend in the strengthening of the yen and falls in share prices, increasing uncertainty about the future of the economy.

In this economic environment, the results of the Group during the current consolidated interim period were as follows.

Ordinary income for the current interim period, including underwriting income (including \mathbb{\pm}1,303.6 billion in net premiums written) of \mathbb{\pm}1,994.4 billion, investment income of \mathbb{\pm}95.9 billion, and other ordinary income of \mathbb{\pm}4.9 billion, totaled \mathbb{\pm}2,095.3 billion. On the other hand, ordinary expenses recorded for the current interim period, including underwriting expenses of \mathbb{\pm}1,542.8 billion (including \mathbb{\pm}951.8 billion in net claims paid), investment expenses of \mathbb{\pm}286.5 billion, operating expenses and general and administrative expenses of \mathbb{\pm}252.7 billion, and other ordinary expenses of \mathbb{\pm}4.3 billion, totaled \mathbb{\pm}2,086.1 billion.

As a result, ordinary profit for the current consolidated interim period was ¥9.2 billion, reflecting a year-on-year decline of ¥61.3 billion. Net profit for the interim period after adjustments mainly for extraordinary losses and total income taxes was ¥7.1 billion, reflecting a year-on-year decrease of ¥32.9 billion.

Since October, flood damages in Thailand have been occurring at several industrial complexes where many Japanese-owned companies are located. In efforts to confirm the extent of damages, the Group has set up a special contingency task force and has been contacting customers. It is still too early to estimate the extent of damages but assessments through onsite inspections indicate that the posting of a significant amount of incurred loss (sum of net claims paid and outstanding claims provision) can be expected at the end of the current period. At non-life insurance subsidiaries in Japan, reversals of catastrophe reserves to cover the major portion of net claims paid can be expected.

#### 2. Qualitative information concerning consolidated financial conditions

Assets at the end of the current consolidated interim period totaled \(\xi\)13,941.0 billion, reflecting an increase of \(\xi\)2,496.0 billion from the end of previous fiscal year, due primarily to the acquisition of Mitsui Sumitomo Primary Life Insurance Company, Ltd. as a wholly-owned consolidated subsidiary, which in the previous

consolidated interim period had been an affiliate accounted for under the equity method. Net assets, on the other hand, decreased ¥128.1 billion from the end of previous fiscal year, to ¥1,505.2 billion, due primarily to decrease of unrealized gains on investments.

# 3. Qualitative information concerning forecasts for consolidated results

In consolidated results for the full year, the Company forecasts ordinary income of ¥3,900.0 billion, ordinary profit of ¥24.0 billion, and net income of ¥6.0 billion. Based on consolidated results for the interim period and the above forecasts, the Company has adjusted forecast figures announced on May 19, 2011. For details of the revised forecast, please see "Notice Regarding Revision of Consolidated Earnings Forecasts for FY2011 (Fiscal Year Ending March 31, 2012)" released today (November 18, 2011).

Forecasts for results are based largely on the following assumptions:

- Net premiums written are based on the Company's own forecasts in view of past trends in results.
- Incurred loss (sum of net claims paid and outstanding claims provision) due to natural disasters (domestic) during the current fiscal year is expected to be \footnote{25.0} billion for Mitsui Sumitomo Insurance Co., Ltd. and \footnote{18.0} billion for Aioi Nissay Dowa Insurance Co., Ltd.
- Concerning the estimate of the impact of floods in Thailand, it is still difficult to determine the extent of damages through onsite inspections. Incurred loss is expected to be approximately ¥130.0 billion based on certain assumptions (the negative impact on net income for the current period is expected to be approximately ¥15.0 billion, reflecting a reversal of the catastrophe reserve).
- Merger-related expenses of ¥10.5 billion for the merger of Mitsui Sumitomo Kirameki Life Insurance, Co., Ltd. and Aioi Life Insurance Co., Ltd. are expected to be recorded as an extraordinary loss.
- Forecasts are based on the assumption that exchange rates and stock market prices will not fluctuate significantly from the end of September, 2011 onwards.
- The consolidated results forecast of the Company is based on information currently available including the above and contains many elements of uncertainty. Actual results may differ significantly due to various factors in the business environment.
